

Manufacturing a Sustainable Future

Replas at a Glance

Over **33 years** manufacturing recycled products from problematic plastic waste

New **\$2.5M Manufacturing Hub development** announced this year, in conjunction with Sustainability Victoria & Federal Grant

Made in Australia from Australian waste with a minimum 85% recycled plastic.

Regional roots, Australia wide. You'll find our products in cities and town across Australia & New Zealand.

Australian Made FROM Australian Waste

From Our Community, For Our Community.

Every year,
Replas remanufactures
3000 TONNE
of end-of-life plastic,
diverting it from landfill.

Our Range

PLUS MANY MORE!
